## A MESSAGE FROM OUR DIRECTOR OF POLICY & ENGAGEMENT

Kansas Family Voice was founded on the Biblical principles which drive us to promote the welfare of the state in which we live. It has always been our vision to see a Kansas where God is honored, religious freedom flourishes, families thrive, and life is cherished. While there is still room to grow, we have felt a shift in our state as more people desire to prioritize policies that protect families and honor the heart of God. Expanding our impact would not have been possible without you, our faithful supporters. Thank you for allowing us to be the hands and feet of Jesus right here in our state. We pray for your continued support as we grow our vision to become even more in the days ahead.

## A YEAR WITH UNIQUE CHALLENGES

Every year brings a host of new challenges. Last year, we were finally able to override the Governor's 3rd veto of the **Fairness in Women's Sports Act** protecting girl's opportunities in our state. This year we faced similar challenges. While we did not get everything we wanted, we still saw major advancement for families as 5 pro-family policies became law. We had to override four vetoes from Governor Kelly which required a supermajority of legislators in both chambers to come together. For the first time ever a bill we drafted passed unanimously in the Senate. **The Protecting Kids Online Act** requires pornographic websites to use age verification technology to ensure minors cannot access their sites. Gov. Kelly could not find the courage to sign even this bill that received bipartisan support in both chambers. Sadly, we were not able to override her veto of **The Help Not Harm Bill** because two legislators switched their votes. We will bring it back next session because we must protect kids in Kansas!
